Clicking “Review Logbook” links to the current trainee logbook. WOSSA have created an annual and cumulative logbook file, exact copy of the logbook reports generated by the LLP logbook system. All trainees are asked to report their clinical experience in this format. Should be filed as Personal Activity - ARCP Document/Form R

Appropriate exposure to different surgical specialties. Good number of cases throughout. Appropriate range of ASA, age and supervision. Some evidence of independent practice.

Excellent practical procedure numbers

The actual comments you make are as in previous reports. The final ESSR only contains the text, the “box” disappears.

## 7) Supervisory Meeting
